## PROFESSIONAL SUMMARY

Passionate and results-driven Front-end Developer specializing in building responsive, high-performance web applications with React.js and Next.js. Recognized for writing clean, maintainable code and transforming ideas into seamless user experiences with speed and precision.

## WORK EXPERIENCE

### Associate Software Engineer, InvoByte

05/2025 – Present

**CIMS:** Authentication & Authorization Server for Secure Resource Access

Lahore, Pakistan

- Developed front-end features using Next.js, shadcn/UI, and Tailwind CSS, creating optimized, reusable components for managing client- and application-level access control based on ABAC and RBAC models. Participated in sprint planning, providing accurate task estimations and prioritizing deliverables to meet project deadlines.

### Junior Frontend Developer, Tekvaly, Phenologix

06/2024 – 05/2025

**ScrumDroid:** Comprehensive organizational management platform for attendance, assets, and daily tasks.

Lahore, Pakistan

- Designed and optimized user interfaces using ReactJS and SWR, ensuring seamless data handling and a highly responsive user experience. Improved application efficiency and rendering speed through strategic use of React and Next.js, enhancing interactivity and performance.
