WORK EXPERIENCE

Associate Software Engineer

InvoByte

05/2025 - Present

Lahore, Pakistan

Achievements/Tasks

- **CIMS:** An authentication and authorization server built to protect application resources using ABAC and RBAC models. On the front-end, I used Next.js, shadcn/ui, and Tailwind CSS to build optimized, reusable components for managing client and application-level access control.

Junior Frontend Developer

Tekvaly, Phenologix

06/2024 - 05/2025

Lahore, Pakistan

Achievements/Tasks

- **ScrumDroid** : A comprehensive platform for managing attendance, assets, and daily organizational tasks. I was responsible for building and optimizing user interfaces using ReactJS and SWR, ensuring seamless data handling and a responsive user experience.
- **Hiredroid:** A dynamic job portal designed to streamline the hiring process for HR professionals and job seekers. Using Next.js for the front-end, I helped build intuitive interfaces where HR could post jobs and manage interviews, professionals could apply for positions, and company owners could create and manage company profiles

Contact : Hamza Ahmed (Technical Lead) - +92 322 4874405

EDUCATION

Bachelors of Science in Software Engineering (BSSE)

University of Central Punjab

10/2020 - 07/2024

Lahore, Pakistan

CGPA:3.61

TECHNICAL SKILLS

React Js

Next Js

JavaScript (ES6+)

Redux

Tailwind CSS

MUI & Shad CN

Redux Toolkit

SWR (Stale-While-Revalidate)

HTML5 / CSS3

Performance Optimization

TypeScript

Responsive & Mobile-First Design

React Bootstrap

PERSONAL PROJECTS

Personal Portfolio (06/2023 - 06/2023)

- I developed a personal portfolio website using React.js to showcase my skills, projects, and experience as a Front-End Developer. The site features a clean, responsive design and highlights my proficiency in component-based architecture, routing, and interactive UI elements. [GitHub Repository](#)

Heartland Rehab (08/2024 - 04/2025)

- Built with Next.js for optimized performance, and styled with React-Bootstrap for a responsive layout. Implemented component-based architecture for maintainability, dynamic routing for seamless navigation, and integrated third-party tools. <https://heartlandrehab.sg/>
